Subject: Manganese IAP - Agency Review Plan - Friday, August 10
Attachments: Mn IAP draft final 08022018 (clean).docx; Appendix B Comparison of effects in children versus adults (08022018).docx; Appendix C Mn PK (08022018).docx; Appendix A Mn Literature Search (08022018) (1).docx

Hi Tina – In coordination with Kris, Emma, and the manganese assessment team, we are preparing to distribute the draft IRIS assessment plan for Agency Review. Given the overlap with the Handbook review, Kris has proposed providing the Agency Reviewers a 4-week review period starting on Friday, August 10 and ending on Friday, September 7. The document will be provided to the tech editors concurrently to address any formatting issues.

Let us know if this plan is appropriate and whether any adjustments need to be made. I've attached to this email the most recent version of the IAP and its appendices (A,B,C).

Thanks!

Dahnish
